FloatPlanWizard Fact Sheet

Updated August 15, 2026

FloatPlanWizard helps recreational boaters plan routes, organize trip details, send float plans, and keep trusted contacts informed, with free membership and optional Premium trip features.

Quick Facts

Website: <https://floatplanwizard.com>

Founder: Larry Wald, longtime recreational and solo boater

Experience: Approximately 55 years on the water and 30 years in professional web development

Location: Gulf Harbors, Florida

Category: Boating safety, float plans, and recreational-boating trip planning

Audience: Recreational boaters

Membership: Free planning and Basic sending, with optional Premium trips

Why It Was Built

As a solo boater, Larry Wald wanted a quick, practical way to tell his family or a shore contact where he was going, when he expected to return, and what information they would need if he failed to return. That personal safety need grew into FloatPlanWizard's broader recreational-boating planning and safety platform.

Current Membership Model

- Free membership and route planning
- Saved vessel, operator, passenger, shore-contact, waypoint, and trip information
- Multiple Draft float plans and free Basic Save & Send
- One complimentary complete Premium trip for each new member
- Additional individual Premium trips for \$4.99, or Monthly or Annual Premium membership
- Individual Premium trip access currently lasts up to 21 days

Free Public Boating Resources

- [Solo Boating Safety Guide](#)
- [Shore Contact / Overdue Boater Guide](#)
- [Boat Fuel Calculator](#)
- [Great Loop Lock Library](#)

Suggested Story Angles

- Solo boater builds a float-plan platform from a personal family-safety need
- Saved information makes future float plans faster to prepare and send
- Public guides help solo boaters and shore contacts prepare for overdue situations
- Great Loop planning libraries organize public lock and route information

Safety Notice

FloatPlanWizard is not an emergency dispatch, rescue, or distress-response service. In an emergency, boaters should use official emergency channels such as VHF Channel 16, DSC distress, 911, EPIRB/PLB, flares, or other accepted emergency methods.
